# Welcome to Eroticon

## **We're so excited to welcome you to Arlington House for Eroticon 2019!**

Here we are again at Eroticon 2019, it doesn't feel like a year has gone by and yet sometimes it feels like ten. We are living in interesting times where it can seem like the world is against this supportive and sex positive community we have built. With SESTA/FOSTA in the US, and age verification in the UK, not to mention the larger implication of Trump and Brexit and the online world suppressing our right to be sexual creatures (I am looking at you Tumblr) it can feel like everyone is out to get us.

But there have been some victories for our team. The folks at Backlash have managed to help the BBFC to relax their rules on what is extreme pornography and that will open up discussions that could lead to people in the UK to be able to legally consent to BDSM.

It is the people in this community that make this kind of change possible. I am talking about you, whether you are new to Eroticon or have come every year since it began, it is you that affect a positive change on the world. The people you meet and the things that you learn here will propel us all forward until we meet to do it again. The speakers, the sponsors and you, the folks that buy a ticket, help build a place that we use to lift each other up. That will last for long after this conference has ended.

For the next two days there will be workshops, talks and demos that we hope will inspire you to think, talk and write about for the year to come.

So spend this time getting to know the people who think like you, and more importantly the ones that have a different point of view than you do and wring every bit of value you can out of this weekend and be the change you want to see in the world.

We're grateful to every single one of our incredible speakers who share their experience and expertise. The staff at Arlington House for making sure everything runs smoothly. And the sponsors who give us the money that make Eroticon possible, they are part and parcel of making Eroticon affordable. And to those who help publish and promote your amazing work: Resonance Press for publishing our Eroticon anthology, and Victoria Blisse who runs the book stall where you can buy it - along with other brilliant books written by Eroticon speakers and attendees.

Each year we do our best to create a program that is diverse and educational, this year is no different we hope you find the sessions to be not only educational but enlightening as well.

So we hope you enjoy Eroticon 2019! Tweet (#Eroticon) and blog about it, learn, have fun, and above all remember that Eroticon isn't just a conference, it's a community. And every single one of you is a valuable part of it.
